Project Title: Henri Matisse Website

I'd like to build this site as multiple pages, rather than a long, single page website. Typical navigation probably across the top. Some pages will have mostly text, while others will be image-heavy to showcase his work.

- **Home Page/Introduction** – Introduce summary about Henri Matisse
- **Early Life and Education**
- **Selected Works: Paris, 1901-1910** – Mostly pictures of his work from this time period
- **Sculpture** – Mostly pictures of his sculpture work
- **War Years**
- **Final Years/Legacy**
